

Well of Tyranny

The Wellesley family are a high level British nobility with some Welsh ancestry and they are involved in military and have alliances with the House of Orange, House of Hohenzollern, House of Bonaparte, Spanish House of Bourbon, and British Crown. Their agents in the United States run Wellington Management Fund which has 1 trillion in managed assets and was named after the Duke of Wellington. The Wellesleys are powerful merchant-bankers with authority over Wells Fargo. The Wellesley family's ultimate loyalty is to the Dutch Crown. They have origins in Venice and were originally the Venetian Fonte and Fontana family which gave the name Fonte to the commune of Treviso. Fonte means Well in Italian like a water hole or spring. The Wellesleys and Hohenzollerns are the owners of the Devils Diciples which were founded and headquartered in Fontana, California. The House of Orange also have Venetian origins likely from the Tron family and use the shell symbol for their Royal Dutch Shell company in reference to the orange haired deity Venus being birthed out of sea from a seashell. Venice is named for Venus. The Venetians were the top merchants for centuries. The head of the House of Wellesley is Arthur Charles Valerian Wellesley the 9th Duke of Wellington and he has worked as a director, chairman, and deputy director for about a dozen different merchant companies including several French based companies like Pernod Ricard and Sanofi. His wife is Princess Antonia of Prussia of the House of Hohenzollern which are German royalty. Arthur Wellesley the Earl of Mornington worked for Bain & Company, Charterhouse Capital Partners and currently works for Oakley Capital Investments headquartered in Bermuda. He worked for Bain & Company which is connected to Bain Capital with Mitt Romney as a co-founder because they are allied with the Earls of Romney in the UK which invited King William III of Orange to takeover the English Crown. The House of Orange are married with the House of Hohenzollern which are married with the Wellesley family. Lord Frederick Charles Wellesley is another son of the 9th Duke of Wellington and is involved in the military. Lady Charlotte Anne Wellesley is married Alejandro Santo Domingo Davila and he is worth over 4 billion as part owner of Santo Domingo Group. Valerian Wellesley the 8th Duke of Wellington was a Knight of the Order of the Garter which are London's reformed Templar merchants. The Wellesleys often take the name Valerian because they are descendents of the Valeria Dynasty of ancient Rome. The Maximus dynasty merged a branch with the Valerias and Prince Valerio

Massimo lives in London and covertly works with the Wellesleys. His grandmother is Dawn Addams and the Wellesleys are the Earls of Mornington. Dawn is morning. The Wellesleys finance human sacrifices to the Massimos of London which work with the Breakspear family of London. The Wellesley family also are the Dukes of Ciudad Rodrigo, Spain granted by the Spanish Crown for fighting against the French in the Siege of Ciudad Rodrigo. They are also the Dukes of Victoria in Portugal.

The Wellesley familys were also made Princes of Waterloo by the Dutch Crown for the 1st Duke of Wellington defeating Napoleon at the Battle of Waterloo and were also given several thousands of acres of land in Waterloo, Belgium which they still own and currently recieve rent from Belgian farmers. The 1st Duke of Wellington was able to defeat Napoleon because the war was staged. The House of Bonaparte is allied with the Dutch royal family today. Arthur Wellesley the 1st Duke of Wellington was a member of the Congress of Vienna which was the basis for the United Nations and is what restored and strengthened the powers of the Vatican, Jesuits, and several European monarchies. The Napoleonic Wars were really a strategic plot to genocide Europeans that opposed the tyranny of the Papacy and monarchs. The Wells family which immigrated from England and established Wells Fargo are relatives of the Wellesley family. Wells Fargo has 1.9 trillion in assets and it is likely the Wellesley family have a large amount of shares in this bank. Timothy Sloan is the CEO and President of Wells Fargo. Wells Fargo uses its wealth to put economic sanctions on small businesses. Warren Buffet is the CEO of Berkshire Hathaway which is an owner of Wells Fargo which purchased Wachovia. Elisabeth Duke is the Chair of the Board of Directors of Wells Fargo. The Duke family are Wellesley agents and tobacco merchants that have been in contract with British tobacco merchants for centuries. The Duke family originated from Devonshire. Henry Duke the 1st Baron of Merrivale was born in Devon also called Devonshire. Basil Duke was a Confederate General whose family migrated to America from Devonshire. Charles Bentwick's grandfather was the 4th Duke of Devonshire and his wife was Anne Wellesley. The Duke family established Duke University and the current CEO of Wells Fargo is Allen Parker who went to Duke University. Graham Wellesley the Earl of Cowley is a merchant-banker and CEO and founder of Wellesley & Co. The town of Wellesley, Massachusetts was renamed to honor the financier Horatio Hollis Hunnewell who was an agent of the Wellesley family. The Wellesley family frequently take the name Arthur and this is in reference to King Arthur in the British legend who wields the sword Excalibur. They are covert owners of MGM's Excalibur Hotel and Casino in Las Vegas which Italian-Spanish crime syndicates use for money laundering and

making criminal payoffs disguised as gambling wins. Wachovia which is partly owned by Wells Fargo was caught laundering money for Mexican drug cartels. The Wellesleys which are Welsh-Irish manage the Ancient Order of Druids. Merlin from the legend of King Arthur was a Druid. The Druids operated during the ancient Roman and Greek empires and were sent out to infiltrate societies like the Celts and make human sacrifices and spread their corruption. The Druids were established by Greco-Egyptian rulers which is likely a reestablishment of them from more ancient societies. Stonehenge was a Druid ritual sacrifice alter. Arthur Gerald Wellesley the Earl of Mornington is highly active in his family's criminal enterprises and is considered the real King of England by the Imperial Dutch House of Orange-Nassau which previously conquered England under William III of England. Arthur Wellesley is extremely narcissistic, dangerous, and malicious. Through the House of Wellesley's banking and merchant connections which are like a well of money this family is financing relentless corruption and tyranny.

Arthur Charles Valerian Wellesley the 9th Duke of Wellington. He is a top authority over the City of London Corporation and he is covertly overseeing Wells Fargo through the Duke family and Warren Buffet and also overseeing Wellington Management Company in the United States which manages 1 trillion in assets.

The Gens **Valeria** was a **patrician family at Rome**, prominent from the very beginning of the Republic to the latest period of the Empire. Publius Valerius Poplicola was one of the consuls in 509 BC, the year that saw the overthrow of the Tarquins, and the members of his family were among the most celebrated statesmen

and generals at the beginning of the Republic. Over the next ten centuries, few gentes produced as many distinguished men, and at every period the name of Valerius was constantly to be found in the lists of annual magistrates, and held in the highest honour. Several of the emperors claimed descent from the Valerii, whose name they bore as part of their official nomenclature.[1]

The **Valerii Maximi** appear in history down to the First Punic War, after which time the surname was replaced by Messalla or Messala, a cognomen derived from the city of Messana in Sicilia.

Arthur Wellesley is a banker that has worked for Bain & Company, Charterhouse Capital Partners, and now works for Oakley Capital. Arthur Wellesley is total psychopath and he is murderously vain and egomaniacal. He is utterly obsessed with himself and thinks he is god and all sorts of delusions. Arthur Wellesley manages the Ancient Order of Druids which are involved in human

sacrifice and cannibalism. The Breakspear family of England also manage the Druids along with their Italian relatives the Massimo-Lancellottis which gave the name to the character of Lancelot in Arthurian mythology. The Druids currently live out in forests and have been involved in kidnapping people in the woods. There are many unexplained disappearances of people who go hiking in forests. The ancient Druids were known for making human sacrifices and they still do today. The Druids act like they are peacefully nature worshipers however they are really psychopathic sadists that burn people alive and say human sacrifice is a part of nature. The Druids were an ancient organization which operated in Europe and secretly in North America which is why there are Druidic ruins on the East Coast of the United States. Druidic sites were designed for human sacrifices. That is what these Druids are about. They murder people and consume their flesh and blood because they think it gives them magical powers.
